

BEGINNING OF SEMESTER ORIENTATION WEEK

Why is QA/Accreditation Important for YOU?

CUF has always been a leading institution in the Arab World (ranked in the 1st-5th best engineering schools in Egypt for Arab region)

In 2018, CUF ranked 250 within the Engineering universities in the world, and ranked the 1st in Egypt and Africa according to QS.

CUF aims at continuously improving its position among national and international institutions, and the required continuous self-assessment and other quality assurance systems are vital for this. That is why the Quality Assurance Unit (QAU) is working on a number of projects to achieve this goal. One means of doing this, is through surveys, conducted by QAU including 11,500 staff and 150,000 students.

Being a graduate from an accredited institution increases your chances to get job offers and is sought after by national / international employers.

The accreditation of your institution assures you, because if you are intending to work as an undergraduate/graduate student in another international institution.

National and International Accreditations

CUF is an internationally recognized institution for its national and international accreditations.

In 2015, the Department of Engineering was internationally accredited for 8 years by the UAEQA (The Quality Assurance Unit) of the Ministry of Education.

In 2016, ACT (The Association to Advance Collegiate Schools of Business International) was validated by 8 years as the UAEQA Validation Committee.

In 2017, CUF was accredited as an institution by NAQAAE (National Association of Quality Assurance of Education) for 8 years.
